## HARRY PANHORST APPTD. AN ASST. ADMINISTRATOR

MR. HARRY PANHORST has been appointed one of Barnes Hospital's Assistant Administrators. He will be on duty for the evening shift.

Mr. Panhorst was born in St. Clair, Mo. He received his A.B. degree at Central College, Fayette, Mo., his B.S. degree from Missouri. At the present time he is finishing requirements for his Master's degree in the Washington University School of Medicine's Course in Hospital Administration. He served as Major in the United States Army Infantry during the last war. During his four years in service, he participated in much action. This is evident from his possession of three purple hearts and a silver star.

The evening shift's having an administrator in charge is a recent innovation. This will provide for continuous central authority from 8 a.m. to 11 p.m.

## FIRE PREVENTION

### DEMONSTRATED LAST WEEK BY ST. LOUIS FIRE CHIEF

Department heads were assembled last week to see movies that demonstrated Fire Prevention. The films were provided by the National Safety Council. Fire Chief Frank Egenriether and A. F. Reinwart gave accompanying advice. Barnes has devised a plan for Fire Prevention that is at the disposal of all department heads.

## GENERAL WAINWRIGHT HERE FOR VISIT

General Wainwright, the famous World War II General in the South Pacific, was here last week for a professional consultation with Dr. Costen, otolaryngologist.

## KNOW YOUR STAFF

by Betty Walsh, Dietitian

MR. WILLIAM ANDERSON, Comptroller, was born in our fair city of St. Louis in the year 1907.

Because he was thin and wiry, he earned the boyhood nickname of 'Spider'. He has lived all his life in St. Louis, attending their Public Grade and High Schools. Mr. Anderson attended Soldan and while there became interested in tennis and basketball. He made the School's tennis team during those years. He majored in Commerce and Finance at St. Louis University, and upon leaving school took a position with a local firm of C.P.A.'s (certified public accountants) and remained with them for fifteen years. He came to Barnes Hospital in January 1944 and took over the position of Comptroller. He is married, and has one daughter, age 19, who is the apple of her father's eye. At present, he has only one dog, a toy fox terrier named 'Corkey'. This is a far cry from the seven Beagle hounds he once had. His love for fishing and hunting take him often down to a three room cabin in the Ozarks.

Secret ambition is to be a farmer. Favorite color is blue. Favorite food is macaroni and cheese and browned pot roast. Likes light operas and popular music, but shuns that 'long-haired stuff'.

Mr. Anderson never holds a grudge, and couldn't think of his outstanding pet peeve, so if you meet him in the hall, watch out, you may be doing it.

Prof: 'Now remember that thinking is said to draw the blood to the head.'

Student: 'Is that why, when you think twice about some things, you get cold feet?'

## WILLIAM DOUGHERTY DIES OF HEART DISEASE

WILLIAM DOUGHERTY, who was a carpenter in our Maintenance Department, died June 2nd of heart disease. He started at Barnes in November of 1941.

## FREEDOM TRAIN

The FREEDOM TRAIN will visit St. Louis on June 12, 13, and 14. This movement is sponsored by the American Heritage Foundation for the purpose of raising the level of the citizenship in the United States.

Their plan has three parts.

The FREEDOM TRAIN is now in a 13 month tour of the 48 states, visiting 307 cities.

A week of Rededication is held immediately preceding the arrival of the train in each city. There is a 13 months campaign of public education utilizing all means of mass communication to persuade the people of the country that 'Freedom is everybody's job'.

This movement is not financed by the government but by contributions from the American public.

The Admitting Office remarked the prevalence of patients from Oblong, Ill. They suggested we add an 'Oblong' Division.

He: 'Do you know who was the first electrician?'

She: 'No, who?'

He: 'Adam. He furnished the parts for the first loud-speaker.'

~~~~~

ON THE SCENE

ACCOUNTING, CASHIERS, IBM, and CREDIT OFFICE threw a big steak fry on May 27th in Forest Park. In the softball game that followed the festivities, Mr. Anderson, Comptroller, proved to be the star of the game with a spectacular one-handed catch.

Many Barnes employees surprised June Clendenin, fiancee of Ted Bowen, Administrative Intern, with a personal shower for the big wedding in August.

DONNA CLEMMENSON, floor secretary, and ERMA J. JACKSON, head nurse, departed to renew some college knowledge.

The annual GYN. picnic was held Saturday afternoon at O'Connell's Farm. All graduate nurses of the hospital along with their friends were invited. The group enjoyed swimming, badminton, and baseball during the afternoon with frequent time out for soft drinks, ice cream, hot dogs, shrimp, steaks, and all the appropriate trimmings.

Miss NANCY LOWE, Nursing Supervisor, Miss PHYLLIS MAGNESS, Nurse, and Miss JEAN COLEMAN, Head Nurse, Maternity Hospital, are starting a menagerie. Their first animal is a kitten and the second addition is to be a puppy.

There is an extensive traveler in our midst. Miss Helen Wells, nurse in 0300, is leaving the staff to go to California and then to Sweden.

HAPPY BIRTHDAY

WEDDING BELLS

Best wishes are extended with loads of happiness to the forthcoming brides. The hospital personnel is following that old tradition of marriages in June.

Miss Dorothy Weber, head Nurse on 700 McMillan, is leaving us today to be married to John Watkins.

Miss BETTY FULTS, also on 700 McMillan, will be married soon, but plans to remain with us.

The following attendants are also busy with wedding plans -- RACHEL CHAPMAN, McMillan; ROSE HAMILTON, 3405; LORETTA FULTON, 3100. The Nursing Department has certainly monopolized the wedding list this month.

MARIAN PURDUM, Comptroller's office, is proudly displaying a lovely diamond engagement ring which was given to her by Bill Hehner. (Yes, Bill is the brother of HOWARD HEHNER, Storeroom Manager.

HAPPY BIRTHDAY (cont'd.)
